BGC/BGQ TEAM APPROACHES 30th YEAR IN PENNDOT ADOPT-A-HIGHWAY PROGRAM

Perkasie, PA - On Saturday, April 13, 2024, members of the [Blooming Glen Contractors, Inc. \(BGC\)/Blooming Glen Quarry \(BGQ\)](#) Team participated in the annual Adopt-A-Highway (AAH) beautification of a two-mile stretch of Minsi Trail between SR 113 and Rickert Road in Hilltown Township, Bucks County, PA. The team collected and disposed of 29 bags of trash, cans, bottles, tires, a stop sign, a drone and other collectibles. This marks the 29th year of participation for the BGC/BGQ team, demonstrating another successful cleanup effort to enhance the vitality of BGC/BGQ's backyard.

The upkeep of the region's roadways is directly related to the services BGC provides. As a regional leader in the heavy civil construction sector since 1971, we proudly lay the framework that keeps our region expanding and moving forward, completing projects ranging from interstate roadway systems to international airports. The AAH program saves taxpayers millions of dollars in cleanup costs and allows the state government to allocate transportation funds to other projects. BGC's participation in the AAH program also underscores the value BGC places on volunteerism in the communities we serve. Not only does our business operate within Bucks County, but many of our employees and their families are Bucks County residents.

We extend our sincere thanks to our BGC/BGQ AAH Team for their time and effort in benefiting others and beautifying our spectacular Commonwealth. For more information on PennDOT's AAH program, please visit [their official website](#).

[Blooming Glen Contractors, Inc.](#) is a family-owned and operated heavy civil construction services and site contracting company based in Skippack, Pennsylvania. BGC provides full-service site contracting and heavy civil construction services in the following core areas: [complete site and land development](#), [transportation & structures](#), [water & wastewater service](#), [design-build and value engineering](#), [demolition](#), [environmental](#) and [emergency response](#). Founded in 1971, we remain dedicated to providing our customers and clients with exceptional service and finished products of the highest quality.
